Messrs. S.H.&H.Chapman.

Dear Sirs:-

Herewith hand you 8 gold dollars which you can have for \$ 1.60 each. They are very scarce around here. I was at all the banks and only got one. I have offered them \$ 1.55 for all they can get and while they said the price was all right they could not see how they could get any.

There are lots of gold dollars in this city but the trouble is that people will not sell them for less than from \$ 1.75 to \$ 2.00

You see every once in a while some fool wants one for a keep sake or present and will in order to get it offer \$ 1.75 to \$ 2.00 and then the people get the confounded idea into their head that they are really worth that much.

I had to pay \$ 1.55 for these in order to get them although it was not so very much trouble as one party offered me the seven at that price last Saturday. In case I could get any more how much is the outer limit I should pay.

Yours respectfully,

Lewis J. Henise.

Dear sirs:-

We are in receipt of your postal wherein you make inquiry as to the gold dollar subject &c.

Replying to same beg to state our answer will be as heretofore, which was that we do not have any nor did we for a number of months.

If you can quote a good price that we think will be a winner here we will advertise for them and try for some. At the price you have last quoted we could not buy them as the people around here are gathering them up and holding them. Regretting that we cannot accomodate you I am

your res ectfully,

Lewis J. Henise.
